

# VELCOOL®

## 2 LAYER COOLING & COMPRESSION KIT

### PROPERTIES

- Uses the principals of R.I.C.E Method of treatment
- Combines a cooling layer (1) and compression layer (2) to effectively treat all kinds of pains, aches, sprains & strains
- The specially formulated solution incorporated in the bandage starts evaporating upon contact with skin thereby cooling the applied area
- Swiftly reduces swelling & pain
- Cohesive bandage holds the cold bandage in place to achieve a complete and comprehensive cooling effect
- Easy application and no need for clips
- Latex free

#### Content:

- Impregnated Bandage 10 cm x 5 m
- Cohesive Bandage 10 cm x 2 m

### INDICATIONS

- Sprains & strains
- Sports injuries
- Joint inflammation
